

# GEOGRAPHY AND MAP SKILLS FINAL ASSESSMENT

Congratulations!!! You have won the lottery!!! Well, you really haven't won the lottery, but pretend you have. Now pretend that you can go anywhere and do anything for a vacation. Sounds like fun, doesn't it. Well, that's what you are about to do.

As your final assessment you will create a brochure about a place you would like to go to. It can be an imaginary vacation spot, a resort, or an amusement park. Your brochure will need to include the following items:

1. A title for your imaginary place

2. A map detailing what the place is like. The map must have:

a) a key or legend box with symbols

b) a compass rose

c) at least 3 physical features (mountains, lakes, river)

d) at least 3 man-made features ( town, rides, ski lift)

e) a scale\*

3. A written description about your ideal spot. You want other people to come here too. Include where it is located, how to get there, what the climate is like, etc.

4. Color and pictures.

\*Note: This is optional. Do it if you want for extra-credit.

Enjoy your vacation. Send me a postcard.
